

PROFESSIONAL AUDIOVISUAL INDUSTRY ACTIVITY REPORT

January 2024

Opening Thoughts

Happy 2024! Solomon's Global Media Group is excited about 2024 for Professional AV and the M&A market. In 2023, the group closed over 10 transactions and is bullish on strong industry tailwinds.

We believe the Pro AV sector is set for strong growth given the positive trends of digital transformation and AV IT to connect and message with customers in all environments. Businesses need to have the ability to show real time content, messaging and advertising, which digital signage and software enable in the physical world. The focus for 2024 will be providing full engagement solutions to customers, including hardware, software and value-added services.

We very much hope to help you grow and understand the M&A opportunities in the market. We look forward to seeing you at Solomon events throughout the year, including next week at ISE in Barcelona!

Best,

Ren Lindon

Ben Zinder, Director - Global Media Group

- Pro AV Industry Outlook
- AV Trends to Watch
- Recent Earnings Summary & Commentary
- Pro AV Industry Experiencing Consolidation
- Trading and Valuation Update

Recent Solomon Partners Transactions

Book #2 Launched!

Pro AV Primer by Solomon Partners' Mark Boidman

AV Industry Shows Resilience Despite Economic Challenges

The AV industry is experiencing normalization resulting from economic headwinds, however growth opportunities are still prevalent

INDUSTRY OUTLOOK

- The AV Sales Index fell slightly towards the end of the year with November yielding 56.9, down 5.8% from August 2023 close of 60.2
 - The gap between North America and the rest of the world widened to 10.4 in the November outlook, but is expected to shrink moving forward
- As supply chain issues resolve and inflation is curbed, the pro AV industry is poised to see future growth

GROWTH OPPORTUNITIES

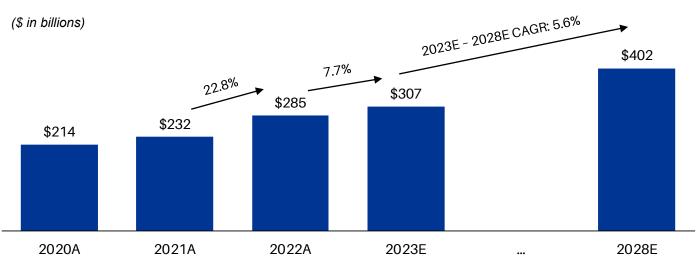

- AV integrators are leveraging advancements in AI applications to expedite the design process and remove costs associated with developing systems
 - AI-driven virtual reality allows clients to visualize what their environments will look and sound like in real life, enable designers to make adjustments quickly and accelerate the design process
 - In addition to design and integration, AI tools will also provide a boost to supply chain processes to become more resilient in the face of a disruption than they have been in the past
- Increased emphasis on immersive environments are driving new opportunities in production and collaboration
 - Corporate offices are investing in immersive environments to draw employees back into the office and keep them there, as affordable LED display technology provides for cross-functional spaces producing a high ROI for corporations
 - While most of the audio experiences in meeting spaces are mono or stereo, a shift to the application of immersive, spatial audio for conferencing will improve the conferencing experience

Pro AV Trends to Watch in 2024

The use of enhanced technology to drive audiovisual product innovation will be a strong theme for the upcoming year

ARTIFICIAL INTELLIGENCE

- While AI is driving growth across multiple industries, its use in AV operations will continue to play a large role in the development of the industry
- Al tools are able to monitor screens to verify that content is playing correctly, create situation-specific images and dynamic playlists and utilize chatbots to buy and sell advertising inventory

MULTI-FACETED PRODUCTS

- Products performing multiple tasks in one unit are popular among end users because they reduce potential points of failure
- Cameras with auto-tracking features to follow the subject and AVoIP solutions that allow for users to connect with multiple pieces of hardware at once are two examples gaining popularity

USER-GENERATED CONTENT

- Leading AV providers are making an effort to give consumers a say in their content to give them a sense of empowerment and influence
- Through incorporating social media into digital signage and allowing consumers to interact with the environment, AV providers offer augmented content tailored to the current audience

HOLOGRAPHIC ADVERTISING

- Holographic advertising, particularly in indoor venues, is a use case of the advances in technology to create 3D digital advertising displays
- The Sphere in Las Vegas is shaping the market for outdoor large-format digital ads in premier locations with a focus on utilizing the technology to capture the attention of all those who pass by

AUDIO EVERYWHERE

- The demand for refreshed offices is strong, with AV distributors reporting that they are putting distributed audio into more projects than ever before
- 2024 will see higher demand for mounted speakers, speakers designed for sound isolation and integrated DSPs in commercial applications

Digital Signage and Interactive Tech Drives Shopper Engagement

Retailers are investing in digital screens and interactive kiosks

As in-store retail media gains popularity, retailers are investing in digital signage and interactive displays to improve the shopper experiences

- In Q3 2023, the public information display market grew 14% YoY
 - Interactive Flat Panel / Touch Displays led the charge, with growth up 20.1% YoY
- This trend is expected to continue as over two-thirds of retail IT decision makers plan to increase retail technology spend in the next several years

"[A] huge opportunity... exists to increase sales and encourage return visits by presenting impactful content using digital screens and interactive kiosks to empower customers to explore a retailer's full range and personalization options"

– Linda Ralph, International SVP, Mood Media

Source: AV Interactive, Coresight Research, Mood Media 2023 In-Store Customer Trends Research, Sixteen:Nine.

CES 2024 Recap

Artificial intelligence, digital health and sustainability take center stage

CES 2024 by the numbers

- The event included over 135,000 attendees from over 150 countries, regions and territories
- There were more than 4,300 exhibitors, including over 1,400 startups within Eureka Park
 - 2.5+ million net square feet of exhibits, 15% bigger than CES 2023
- 25,000+ pieces of media content led to 160+ billion impressions

Key Trends

Artificial Intelligence

- Advancements in chips, hardware and data infrastructure have created a horizontal wave of AI tech innovation
- CES featured AI applications and platforms from digital twins for simulating physical environments to the latest in self-driving technology
- Digital Health
 - Has benefitted from the AI research surge with early detection, treatment outcome prediction and intuitive primary care chatbot innovations
 - The event showcased health wearables and platforms enabling more personalized, accessible and intelligent solutions for consumers
- Sustainability
 - Companies are harnessing innovation to sustainably solve challenges such as streamlined electrification and battery recycling
 - Hundreds of exhibiting companies emphasized designing their technology to mitigate the human impact on climate change

What's In Store for Retail Media Networks

NRF and STRATACACHE presented What's in Store for Retail Media Networks in NYC in January

NRF RECAP

- In the first event of its kind, NRF and STRATACACHE partnered to dedicate a full day before NRF 2024 to take a deep dive into how in-store media networks deliver significant streams of new revenue from the physical store
- Hundreds of retailers, in-store experience and technology experts, brands and agencies at the full-day event focused entirely on one of the most important channels in the Retail Media Network Ecosystem the physical store
- Presenters included Solomon Partners' Mark Boidman, who discussed the multiplier effect of in-store retail media on overall enterprise value

KEY TOPICS

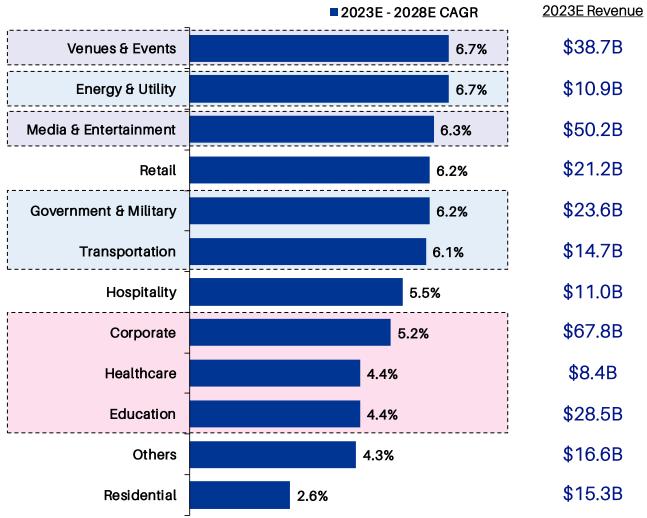

In-Store Potential

- Well over 90% of retail media sales have so far been generated online, retail media is seeing a boom driven by the availability of data and new in-store technologies
- Pro AV for In-Store Retail Media
 - In-store screens can either be DOOH used to monetize the audience or shopper marketing designed to drive purchasing decisions, with both offering potential for digital signage infrastructure needs that hardware and software providers are capitalizing on
- Future of In-Store Retail Media Networks
 - The number of omnichannel RMNs is growing rapidly, as Deloitte currently counts
 120 relevant retail media networks worldwide

A/V Action Report

Midwich H1 '23 ended June 30, 2023.

Audiovisual Industry Continues to Consolidate

 prodyTel is the latest in a string of acquisitions made by Midwich in 2023, adding to the acquisitions of SF Marketing, HHB Communications, Toolfarm, 76 Media Systems and Nimans made earlier this year

- In July 2023, Spectrio acquired InReality and its AI-driven, fully anonymous audience sensing and measurement technology
- The acquisition complements Spectrio's technology stack, which already includes modern digital signage CMS software, content production, overhead music, on-hold messaging, scent marketing and Wi-Fi marketing

- In February 2023, Dancker acquired DBE Systems, an integrated technology contractor focused on delivering solutions for all connected technologies which communicate over copper, fiber and wireless
- Strengthens Dancker's ability to integrate architectural, furniture, technology and logistics solutions across its customer base

- In September 2023, Raydiant acquired Perch, retail's leading digital shopper marketing platform for in-store product engagement and sales
- Combined with Raydiant AI and its customer experience platform and integrated into the new Raydiant Shop offering, Perch's technology will analyze how customers interact with in-store products

- In May 2023, Samsung Display, a subsidiary of Samsung Electronics announced its acquisition of eMagin, an OLED microsdisplay manufacturer headquartered in New York
- Strengthens Samsung's microdisplay and proprietary direct patterning (dPd) technology capabilities
- Partnership provides eMagin with the resources and expertise to expand product offerings and scale production

- In January 2023, AVI-SPL announced its acquisition of Adtech, an audio-visual (AV) design and systems integration firm headquartered in Massachusetts
- Strengthens AVI-SPL's presence and operations in the Northeast
- Considerable opportunity from untapped demand for IT services, including unified communications (UC), collaboration and experience technology solutions

Sector News

Audio / Visual

1/18/24: Bose

announced partnership with Kith, a leading fashion and lifestyle brand, to begin exclusively selling the new Bose Ultra Open Earbuds, that attach to the side of the ears with an innovative cuff-shaped design

1/15/24: 2B Heard

acquired high-end microphone brand Sontronics, expanding into the microphone arena to reinforce its offerings to concert touring, theater and AV customers

1/11/24: AirDrop

showcased Audio Radar, a plug-and-play hardware system compatible with consoles and PCs that translates surround sound output into visual cues to help hearingimpaired gamers compete

1/9/24: Samsung

debuted the world's first transparent MicroLED screen with a brighter display, frameless design and more transparent glass panel than OLED and LCD models

1/3/24: Barco

began scheduling the first order deliveries for its G50 single-chip projectors, fit for single and multi-channel projections in the 6,000 to 8,000 lumen range

1/3/24: Sharp

unveiled its newest and most innovative set of AQUOS BOARD interactive displays, featuring a sophisticated appearance, high-performance touch capabilities and one of the most advanced security safeguards available

12/14/23: Bang & Olufsen

opened its new flagship store on London's New Bond Street, designed to cater to the needs of individual customers by offering an immersive and tailored shopping experience

12/6/23: d&b audiotechnik

announced En-Snap V3, the newest upgrade to the d&b Soundscape cue automation and show control software provided in collaboration with Gareth Owen Sound

Digital Signage Hardware and Software

1/17/24: Cineplex

announced a deal with Cadillac Fairview for Cineplex Digital Media to manage a network of 200 screens in nine of the ten biggest shopping centers across Canada

1/17/24: Philips

launched its PPDS Publisher app which brings CMS capabilities to mobile for Philips B-Line 4k business displays

1/16/24: Samsung

launched its VXT platform, a cloud-native content management solution combining content and remote signage management on one secure platform

1/9/24: Assembly

announced ShopConnect, a software tool designed in partnership with Talon and Place Exchange that combines programmatic buying of DOOH with real-time experiences for consumers

1/2/23: LG

partnered with Veeo to launch three transparent OLED displays with eye contact technology which will be released in 2024

12/15/23: Daktronics

partnered with the Detroit Tigers to replace a previous installation and deliver the second-largest main video display in an MLB stadium, as well as add five additional displays throughout the stadium

12/13/23: Creative Realities

announced partnership with Black Rifle Coffee, a veteranfounded coffee chain, to revolutionize Black Rifle's concept stores and bring next-generation digital solutions to the forefront of their in-store experience

12/6/23: Broadsign

announced its partnership with Zitcha, a unified omnichannel retail media platform, to develop on- and off-site retail digital marketing and OOH solutions

Sector News

Augmented Reality & Event Production

1/19/24: XReal

unveiled the Xreal Air 2 Ultra, a set of special computing glasses positioned as a lightweight and more affordable competitor to the Apple Vision Pro, that will be available in March

1/15/24: LANG AG

launched three 10 X, an AV IT software for creating immersive digital experiences by allowing real-time control and distribution of a wide range of media formats

1/12/24: Microsoft

renewed its partnership with the US Space Force as it builds an augmented reality space simulation that will provide and immersive intelligent environment that users can interact with via a HoloLens headset

1/10/24: Sony

announced it has developed a brand new immersive spatial content creation system featuring a premium extended reality headset through its partnership with Siemens' Xcelerator enterprise platform

1/8/24: Apple

announced that Apple Vision Pro, a device enabling users to watch shows and films from top streaming services through an immersive, spatial experience, will be available for purchase at the start of February 2024

1/4/24: Layered Reality

announced it will open "Elvis Evolution" in London in November, using AI and holographic projection to create an immersive concert attraction

12/4/23: Snap

received a \$20 million grant from the state of California to expand the company's offices and manufacturing of augmented reality devices

Diversified AV

1/23/24: STRATACACHE

announced that it has reached more than 100,000 digital drive-thru screens, expecting the number to exceed more than 250,000 by 2025

1/16/24: Sennheiser

integrated TearmConnect Ceiling Medium microphone with Lumens CamConnect voice-tracking camera system to enable active speaker tracking for hybrid meetings

1/16/24: Xyte

announced a \$30M investment round to further its development of the first all-in-one servitization platform for device and hardware manufacturers

• 1/4/24: LG

achieved UL 2594 and ENERGY STAR certifications on its 11kW electric vehicle model which will be rolled out in the United States in 2024

1/2/24: Panasonic

plans to transfer its professional AV business and Panasonic Visual from its Panasonic Connect division to its Panasonic Entertainment & Communication division

12/19/23: Logitech

product Logitech Sight has become the first panoramic camera to be certified for use with Zoom rooms and the first intelligent camera to be certified by Microsoft Teams

12/18/23: Q-SYS

collaborated with Lenovo to launch a bundle certified for Microsoft Teams Rooms that streamlines the design, procurement and deployment of solutions for spaces

12/13/23: Trison

UK division announced the launch of a games studio for brand experiences using custom-designed digital surfaces, mixed reality and virtual reality

12/6/23: Lenovo

unveiled new Chromebox Micro media player, built for 24/7 digital display deployments in high-traffic facilities, which is smaller than most phones

* Solomon to host cocktail/networking event

A/V Action Report

Solomon Partners is a leading financial advisory firm with a legacy as one of the oldest independent investment banks. We advise clients on mergers, acquisitions, divestitures, restructurings, recapitalizations, capital markets solutions and activism defense across a range of sectors.

Our difference is that we offer unmatched industry knowledge, providing the most comprehensive strategic solutions tailored to generate long-term shareholder value. Our bankers live and breathe the sectors they advise on globally, providing unparalleled analysis, understanding and access.

Our partnership with Natixis, the international corporate and investment banking, asset management, insurance and financial services arm of Groupe BPCE, a top 20 global bank, provides our clients access to strategic advisory services and proprietary financing capabilities throughout Europe, the Middle East, Asia Pacific and the Americas.
